DemoBlaze Web Application – Software Testing Project

1. Project Information

Field	Details
Project Name	DemoBlaze Web Application
Application URL	https://www.demoblaze.com/
Testing Type	Functional Testing & UI Automation Testing
Automation Tool	Selenium WebDriver
Programming Language	Java
Test Framework	TestNG
Build Tool	Maven
Design Pattern	Page Object Model (POM)
Test Cases Designed	275
Test Cases Executed	275
Test Cases Passed	248
Test Cases Failed	27
Test cases Automated	177

2. Modules Covered

The following modules were tested during the project:

1. Home Page
 2. User Registration
 3. User Login/ Logout
 4. About Us
 5. Contact
 6. Product Category
 7. Product Details
 8. Shopping Cart
 9. Place Order / Checkout
-

3. Test Execution Summary

Module	Total TC	Passed	Failed	Not Executed
Home Page	74	74	0	0
User Registration	14	14	0	0
About Us	33	33	0	0
User Login	32	27	5	0
Contact	26	16	10	0
Product Category	22	18	4	0
Product Details	14	14	0	0
Shopping Cart / Place Order	60	52	8	0
Total	275	248	27	0

Overall Result

- **Total Test Cases:** 275
 - **Executed:** 275
 - **Automated:** 177
 - **Passed:** 248
 - **Failed:** 27
 - **Blocked:** 0
 - **Defects Identified:** 27
 - **Pass Percentage:** 90.15%
 - **Fail Percentage:** 9.85%
-

4. Defect Summary

A total of **27 defects** were identified during testing.

Severity	Number of Defects
Critical	1
Major	15
Minor	11
Total	27

Priority Summary

Priority	Number
High	13
Medium	3
Low	11
Total	27

The major defects were mainly related to **login validation, contact form validation, product category functionality, cart behavior, and purchase/checkout validation.**

5. Sign-Off Criteria

The testing activity is considered completed based on the following criteria:

- All planned test cases were reviewed.
 - **275 test cases** were designed.
 - **275 test cases** were executed manually.
 - **177 test cases automated.**
 - **248 test cases passed.**
 - **27 test cases failed.**
 - **27 defects were identified and documented.**
 - Critical, Major and Minor defects were recorded separately.
 - Test execution results and defects have been documented.
 - Automation testing was performed using Selenium WebDriver, Java, TestNG, Maven and POM.
-

6. Outstanding Issues

The following issues remain open based on the current test execution:

- **1 Critical defect**
- **15 Major defects**
- **11 Minor defects**

The failed test cases should be re-tested after the corresponding defects are fixed.

Note: Final production release approval should be given only after the Critical and Major defects are reviewed and appropriately resolved or formally accepted by the responsible stakeholders.

7. Testing Conclusion

The DemoBlaze application was tested across the major functional modules including **Home Page, Registration, Login, Logout, About Us, Contact, Product Category, Product Details, Shopping Cart and Place Order**.⁸

A total of **275 test cases** were designed, **177 were executed automatically**. **248 test cases passed and 27 failed**, resulting in an overall pass percentage of **90.15%**.

A total of **27 defects** were identified and documented with their respective severity and priority.

The automation framework was implemented using **Java, Selenium WebDriver, TestNG, Maven and Page Object Model (POM)**.

Based on the current results, the application has achieved **90.15% pass coverage**, but the identified Critical and Major defects require attention before final production release.

8. Sign-Off

Role	Name	Signature
QA Engineer	Jeshma Veera Monteiro	_____
QA Lead	_____	_____
Project Manager	_____	_____

Final Sign-Off Status

☐ **Not Approved for Release**
